Criterion II – Teaching–Learning and Evaluation

Following are questions for online student satisfaction survey regarding teaching learning process.

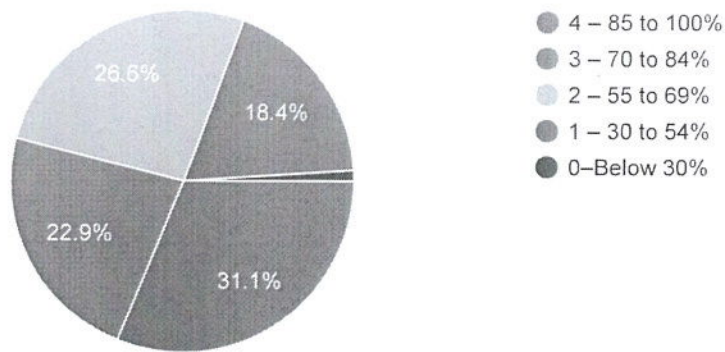

1. How much of the syllabus was covered in the class?

 Copy

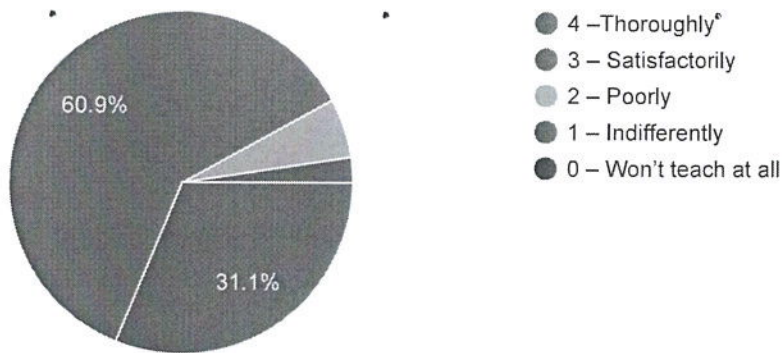

376 responses

2. How well did the teachers prepare for the classes?

 Copy

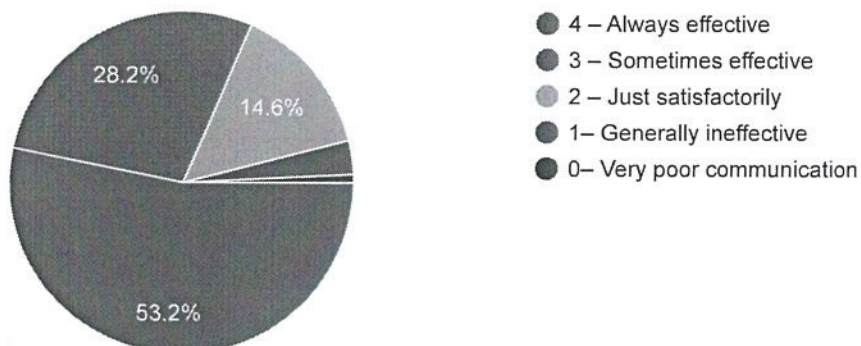

376 responses

3. How well were the teachers able to communicate?

 Copy

376 responses

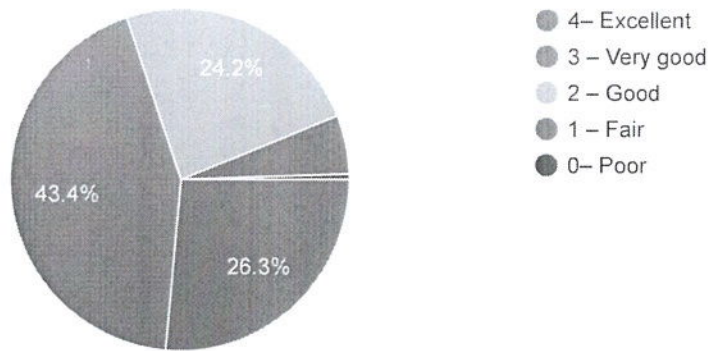

2

4. The teacher's approach to teaching can best be described as

 Copy

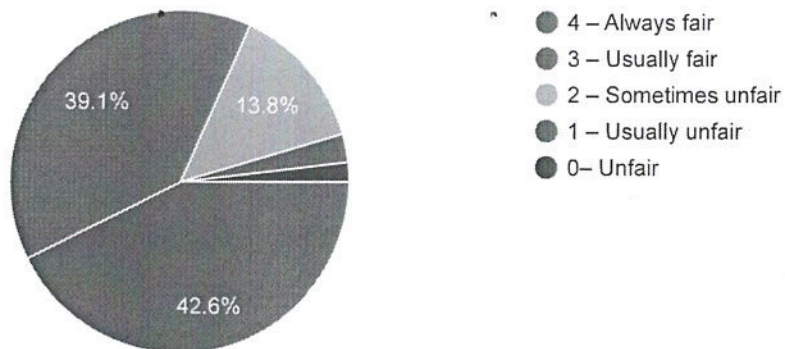

376 responses

5. Fairness of the internal evaluation process by the teachers.

 Copy

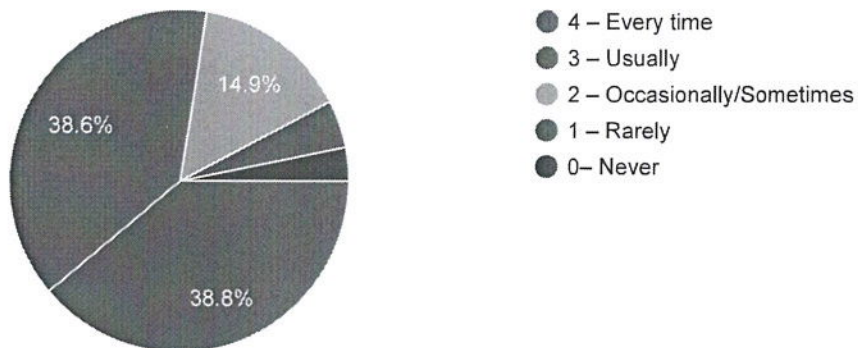

376 responses

6. Was your performance in assignments discussed with you?

 Copy

376 responses

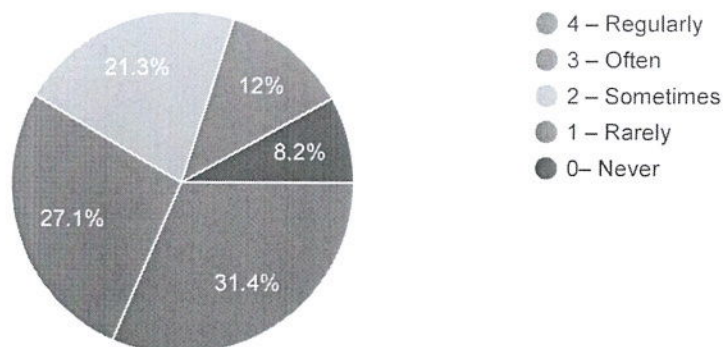

2

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.

 Copy

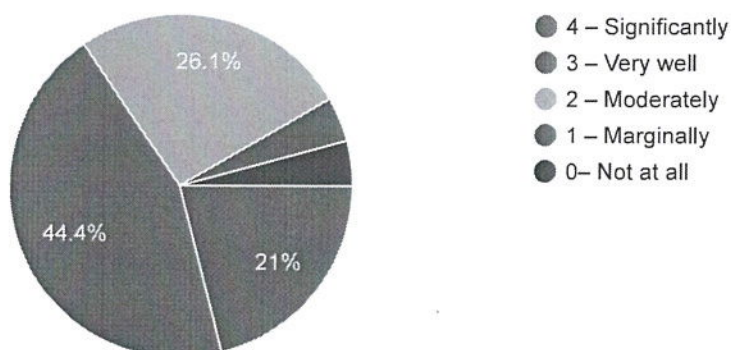

376 responses

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.

 Copy

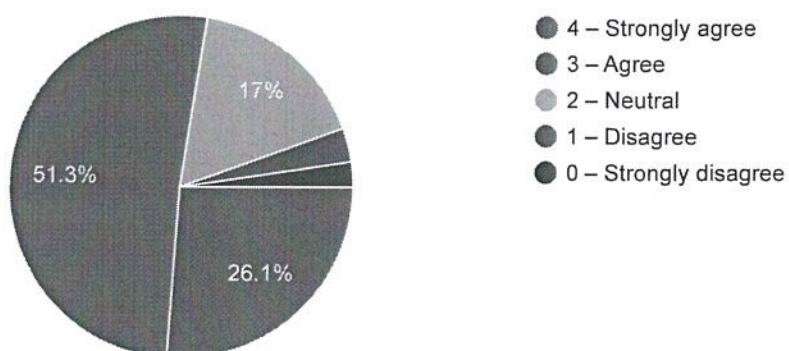

376 responses

9. The institution provides multiple opportunities to learn and grow.

 Copy

376 responses

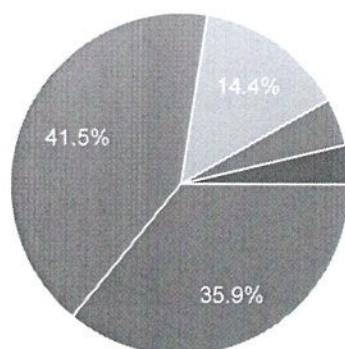

2

10. Teachers inform you about your expected competencies, course outcomes and programme outcomes.

 Copy

376 responses

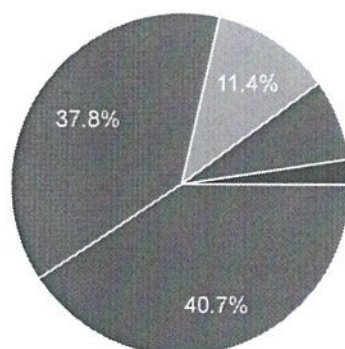

- 4 - Every time
- 3 - Usually
- 2 - Occasionally/Sometimes
- 1 - Rarely
- 0 - Never

11. Your mentor does a necessary follow-up with an assigned task to you.

 Copy

376 responses

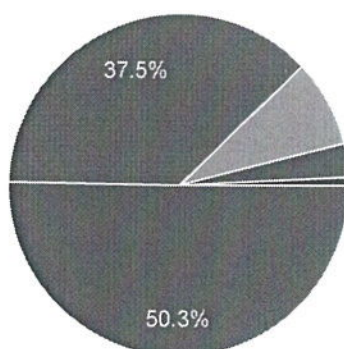

- 4 - Every time
- 3 - Usually
- 2 - Occasionally/Sometimes
- 1 - Rarely
- 0 - I don't have a mentor

12. The teachers illustrate the concepts through examples and applications.

 Copy

376 responses

- 4 - Every time
- 3 - Usually
- 2 - Occasionally/Sometimes
- 1 - Rarely
- 0 - Never

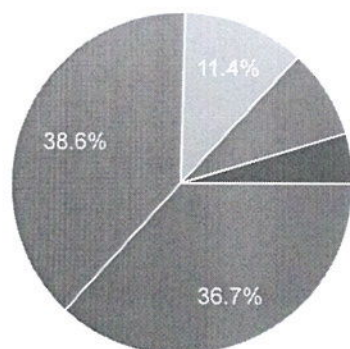

13. The teachers identify your strengths and encourage you with providing right level of challenges.

 Copy

376 responses

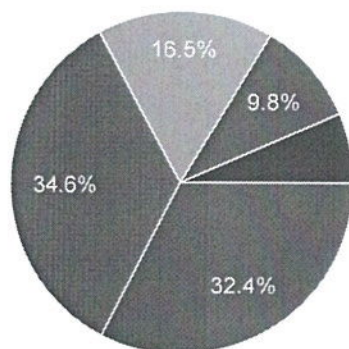

- 4 – Fully
- 3 – Reasonably
- 2 – Partially
- 1 – Slightly
- 0 – Unable to

14. Teachers are able to identify your weaknesses and help you to overcome them.

 Copy

376 responses

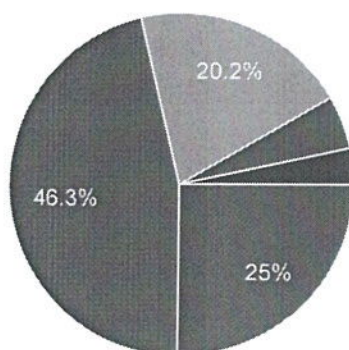

- 4 – Every time
- 3 – Usually
- 2 – Occasionally/Sometimes
- 1 – Rarely
- 0 – Never

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

 Copy

376 responses

- 4 – Strongly agree
- 3 – Agree
- 2 – Neutral
- 1 – Disagree
- 0 – Strongly disagree

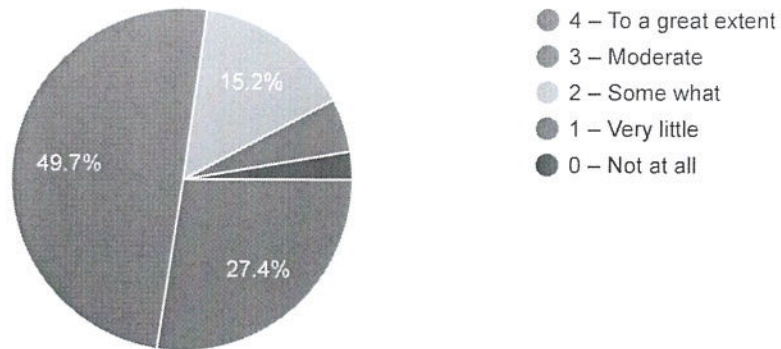

8

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

 Copy

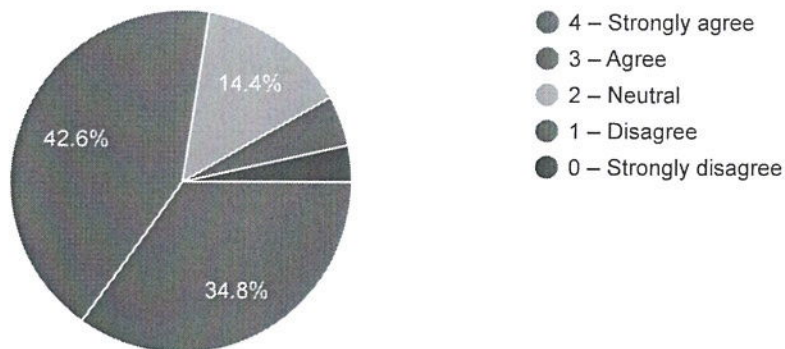

376 responses

17. Teachers encourage you to participate in extracurricular activities.

 Copy

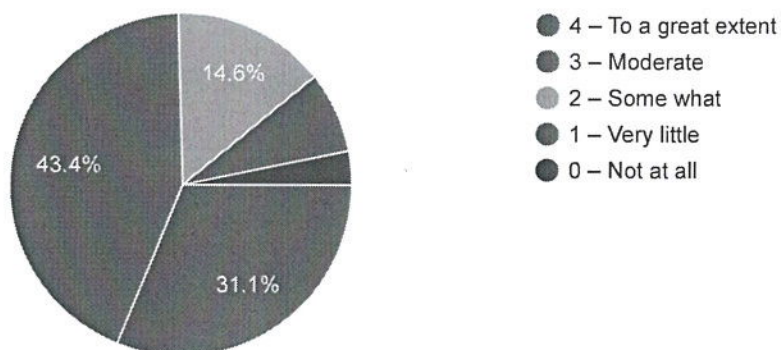

376 responses

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

 Copy

Ntg

Very good

Excellent

.

.

.

Very good

Nice

Good teaching

.....

Its good

No

Please provide more opportunities extra curricular wise

- Placements in the institution would be better
- Overall teaching is really good

Need more opportunities

They should not hurry in completing the syllabus and make sure student have understood the topic well .

No suggestions because teaches are teaching well as easily to understand

It's going good

Let the student express their thoughts and vision about a topic

Every thing is good

Fluency in English
Improvement in labs

Provide proper Class room having projector for the UG biotech Students

They are really very good at explaining us the topic

Interactive

It's good let it be same

Satisfied

Overall teaching learning process is good, but just want to inform this that the office staffs here are not at all friendly and interactive, never provided the information in first hand and keeps on delaying whenever we need something

Give proper class rooms for biotechnology
Intiate more internship for bsc students
Arrange water & toilet cleanly

There should be some free hours for the student to get some breaks in between, continuous teaching to students can make them feel bore and won't understand a thing..other than that almost everything is fine..

I think some teachers should prepare well before the class

They should know the fact that NEP is totally different and it's not understandable for everyone

Learning experience is very good at this institution

Teachers are most be more communicative

To complete full syllabus within exams

I hope teachers can give more attention to individual students and arrange field trip. Thank you

Still more explanation needful.

No suggestions , because it's already a great institution

If we can let students participate in debate or any such competition within the classes regarding their subject, the class will become more interactive and also the topic will be learned soon and will be able to build a rapport between each student as well as teachers. It will become a stage for learning from our own mistakes as well as we will get a better understanding of the topic.

There is no problem in the teaching and learning methods of our college They are doing very well ,but office staff are always keeps delaying to give information or our documents.

Attractive of the students

The teacher can also use projector for teaching with examples so that students will understand the concept more effectively.

Should go bit slowly and make sure everyone are understanding the concept.

Should provide free hours in last hour.

Continuation of same classes per day must be eradicate.

.....!!

No suggestions to give... Having a great time in the college and hoping for the same in the coming days !!!

1. By using more of projectors I guess we as students can gain more knowledge.
2. Instead of taking trips to other places we can have an industrial visit once in a month. Which would help us as BBA students to know what we have learned and how to implement that.
3. Usually we don't find teachers come on time to the class. We students are supposed to look around for teachers and ask them to come.
4. The serious thing I want from authorities is that give us the subjects which have been said by NEP or formed by them. We are being forced to choose other subjects which we don't want. We had a check on NEP portal and we saw that we need to get the subjects like PHOTOGRAPHY , TRAVELING , INTERIOR DESIGN etc. But such is being taken place plzz change the method of teaching we are still using same old methods. But in other colleges like vidya vikas and vidya ashram they have adopted more advance mode of teaching. Plzz change this. And for OE give some subjects like this but not something from other departments. Because of which we get drop back in one subjects which is difficult for us.

I think there are many more things which should be changed in the campus. Sometimes we have class for whole day and sometime there are no classes at all. I request to make a perfect timetable where we even get some free time and even have classes.

It's a request to the college authorities to keep the drinking water clean. We have heard from teachers themselves that the water we get there is not being cleaned. So I request to clean that in alternative days.

And I usually found PG boys hanging around and me and my friends have seen something nonsense happening in the campus with boys and girls With no shame. It's request to keep this things all far we joined girls college because we didn't want boy to tease us but coz of PGBOYS we are facing many things. Please do take care of this too. I think they should keep a meeting only for students and then ask their problems coz in this if we say also nothing will be

considered but still

I Hope you would consider this note. Thank you

Good experienced teachers needed

In this institution education quality is very good. The teachers are well experienced and having a good observation and teaching skill. From my side thier is no suggestions.

Thank you.... ●

The teaching is very good,

1. One of the Best institute for learning .
2. There is lack of office staff support.

better organization of things overall

- Not using projector
- Encourage the weak students to learn
- Not to do partiality

It's nice

Some teachers aren't good in teaching they just go on reading what's in ppt

Teacher should takes part or active intrest in internship and field visit for students and illustrate the concept with example and use projector while teaching

Extracurricular activities and the classes will be held at the same time . Due to this we miss some classes

*Teachers must teach in english

Give value education class 2days per week

It is well and good

-) Use better graphics and visual media to engage students well.
- 2) Try to reach every student and ask for their doubts.
- 3) Make teaching a two way interaction.

* Need to improve ICT based teaching.

* We need teacher to teach little in native language.

* Finally it's a request to the teachers to go little slower while teaching or problems (sum) solving.

1. No topics should be skipped
2. No teacher should scold their students in bad way
3. For the betterment of the college, please make the water availability in the washrooms.

1. Teachers can include practical learning in theory classes.
2. A glimpse of the future application (if any) of the content taught can be mentioned.
3. More interactive sessions can be included.

Nothing to say

nothing

Less home assignment and more quality learning

Only one teacher gives career advice

Other faculties never give career advice

Others use mobile in class (cannot even mention that name bcz that might get to know) and keeps on interrupting class..

That teacher also targets individuals and make them feel low in front of others

Overall average ..

Probably this is the reason why admissions have gone down in TC

Teaching through LCD projector

Teachers should teach us with more examples

That to in corporate accounting

Please tell our teachers to use projector

It's good let it be

1. Activities and classes are going on one particular time . We want this activity n class at different times so that those who want to participate in activities can go freely without the tense of Missing class.

No suggestion

Good education ,friendly teachers , good environment

To improve communication

We should get some extra time to practice sports.

Very good ●

Can improve effective teaching in most simple way which is understandable

1. Mandatory spoken English classes for all teachers before recruitment
2. Reduce workload for students, and give the appropriate amount of time for completion of work.
3. Handling students in a dignified manner, removing the system of having a classwork book, homework book, skill development book, and assignment book. Instead, have a single book.

Teachers are doing good

Need to improve standard of teaching

Need to encourage students in extra activities

every thing is good.

Overall good but hw should be less

This is good college

Should support students to do internships and extracurricular activities

Going very well

Keep improving like this in making the students to achieve more.

Using projectors for effective growth of students

Good experience

R

First they have to give explanation, then they need to give example. So, that we can understand in better way. They should not explain so fast. They need to explain slowly. So that we can understand in better way.

Teresian College is a best college in Mysore.and teaching also very good.overall Teresian College is good.

Try to reach every student and ask for their doubts

Should go little bit slow

1-there are very less opportunity for the students to explore themselves.

2-there is no support from teachers to any sort of activities.

3-there is no internship opportunity for many combinations in this college.

4-there is no encouragement from my department if I want to participate in any co curricular activities .

5-the institution is not being a good mediator between the university and the student.

6-the institution always charges money for the college functions which I personally find unfair.
