Prof V.K. Jose in his speech suggested that the young must more eagerly and with zeal must be the ones who initiate such meetings and call for a reunion. They must take interest in the Alumni and take it ahead as this is a source to bring the stake holders together in keeping the glory of our institution.

There were many who give a feedback as to the event and the days of their life in

Teresian many were of the opinion that an Alumni meets to arrange some guest lecturers on health and values for the benefit of the members. It was also suggested that the members utilize the website that is already started and to be connected through it.

The meeting ended with feedback from the members present who expressed their happiness of being back to the college which nurtured them and gave them that ability to pursue in its world which seemed so strange and university. Uninviting they also remembered those moments where the institution like a mother had taken care of their needs and rendered to their betterment. The ability of each teacher in the institution their concern and the infrastructure of the institution was what they missed the most.

The ones who are pursuing higher studies expressed their opinion of how the college was more like home to them and they miss it.
